Structure A Michigan corporation formed in 1990 and in active compliance status through present. "EGI, Inc." is a registered corporate assumed name used as a short format identifier.

History EGI began offering architectural services in 1992. Ronald Edwards is the company's sole director/officer, principal architect, and owner and is an architect licensed in the state of Michigan. The firm has participated in hundreds of projects over its 24 year operating history with a concentration of experience and expertise in the alteration, rehabilitation, modernization and modification of existing buildings.

Services are provided via a team approach, utilizing professionals in allied fields of design including mechanical, electrical, civil and structural engineers. Our team has a long standing record of success with collaborating. Our work integration processes are well tested and established. EGI typically acts as prime consultant and design team leader and provides a single, responsible point of contact for clients. Team members may interact directly with clients and clients' representatives as part of an Integrative Design process. We focus on conscientious application of our talents, achieving quality outcomes that reflect client goals and objectives.

Documents are primarily produced electronically using AutoCAD and other design/documentation software.

Facilities EGI is based in the TechOne Building within the Tech Town development in Detroit's Midtown district.
